

Tutorial: How to run the program

1. Find java file “ATMDriver” and run. Main function is here.

2. Input ATM number you want to login in main menu.

3. Take ATM3 as an example. Input 3 and enter, then user will see ATM3's menu.

```
ATMDriver [Java Application] /Library/Java/JavaVirtualMachines/jdk1.7.0_51.jdk/Contents/Home/bin/java (May 5, 2014, 11:01:44 AM)
Welcome to use ATM.
Author: Zixiong Miao.
Please input ATM number you want to login:
3
ATM 3 :
MENU :
1. card(int, int)2. pin(int)3. deposit(int)4. withdraw(int)5. balance()6. exit()7. lock()8. unlock()9. Quit the demo program
Please input card information.
```

4. Note: Please input card information directly. No need to choose '1' for card information again here. In this example first int is balance, second one is pin. Use comma between balance and pin. No space is allowed during input.

```
welcome to use ATM.
Author: Zixiong Miao.
Please input ATM number you want to login:
3
